

# The Charismatic Charlie Wade Chapter 3265

## Chapter 3265

At this moment, Hamid, wearing a camouflage uniform, is standing in the southernmost highland fortification of the base, using tripod-type high-powered binoculars to look south.

Thirty kilometers away has actually been very far, so ordinary binoculars simply can not see, these high-power binoculars can only show a general view, and the distance is too far, the lens distortion is great, thus seeing things is very difficult.

However. He still saw the large army that was advancing toward him in the distance from the field of view of the binoculars.

He was a little confused, the government forces have recently been fighting those few larger resistance forces? How come they have freed up their hands to come towards their side so quickly?

So. He immediately instructed his adjutant: "Go, hurry up and contact the hidden sentry in front, prepare to release the drone immediately, and within five minutes, tell me their numbers as well as their equipment!"

"Yes, Commander!"

Hamid's adjutant immediately turned around and left, running inside to contact the concealed sentry at the front by radio.

Soon. The concealed sentry immediately released several civilian aerial drones bought from China.

These kinds of ordinary drones are sold in China for only a few thousand dollars, in the country is nothing more than a toy for photography enthusiasts, aerial photography enthusiasts, but in the Middle East, the strategic role of this thing is very powerful.

First of all, it flies high, after a slight modification, it can fly to a height of one or two kilometers, the map can reach nearly ten kilometers in the open, the flight speed can reach sixty to seventy kilometers per hour, the key is the original fuselage as long as the palm of the hand.

When it flies up in the sky at hundreds of thousands of meters in height, to the naked eye it is simply invisible, and one cannot hear its flight noise, thus it is suitable for use in battlefield reconnaissance.

If it is faced with advanced modern equipment, this thing is certainly useless, before going up it can be found and beaten down.

But if the front is ordinary motorized troops, the other side is really defensible.

So, this kind of drone is used a lot in the military field in the Middle East.

Once several drones took to the air, the size of the enemy force was quickly scouted out.

The adjutant reported to Hamid, "Commander. The size of the opposing army is about eight thousand men, with ten armored vehicles, thirty-six towed howitzers, plus about sixty transport trucks of various kinds, and the scouts in front said that it looks like it should be Russian-made 152mm towed howitzers."

"Damn it!" Hamid cursed, "That's the firepower of two fucking artillery battalions! What do they want? What are they trying to do, blow us up?"

As he was talking, the deputy commander hurried in, panting, "Commander, I just got word that the government army has hired 10,000 mercenaries from an overseas mercenary group called the Cataclysmic Front."

"It is said that these 10,000 mercenaries are extremely powerful and have already conquered several anti-government forces one after another! Including the Hafiz, who used to have a good relationship with us, two nights ago even he was nested!"

Hamid was dumbfounded: “What? Hafez got killed? How come I’ve never heard of this?”

The vice commander said awkwardly: “Everyone is scattered in the ravine, there is no information, and we are recently working hard on infrastructure, we have no time to care about the outside .....

Hamid hurriedly asked again, “What is the origin of that what the Cataclysmic Front?”
